We proudly present, CAPAPIE SPORTS, a company started by keen shooting enthusiast Mr. Vilas Rane in an effort to make indigenously manufactured equipments of international standard available to shooters in India. Timely suggestions by Mr. Nilesh Rane, former National Record Holder, has helped us gain the technical excellence, thus, increasing our popularity in a short period of time.

"CAPAPIE" is a French word meaning a warrior who is covered and well equipped from head to foot, ready for battle. Likewise, we prepare shooters for their sporting battles.

Capapie has been in the forefront for manufacturing and supplying shooting equipments throughout India for over a decade. Our experience and expertise in the shooting field is second to none because of which our business is constantly expanding to serve clients throughout the world. We pride ourselves for the timely delivery of the most cost effective equipments, while maintaining top quality and the highest levels of after sale service. Our thoroughly professional and performance-driven approach has helped us gain a cutting edge over others.

We are updating and upgrading our equipments as per the latest ISSF rules and international standards so as to satisfy the current requirements of world class shooters.

The bag has been designed elegantly with aesthetics look having strong structure with two separate compartments for Jacket/Trouser and other Accessories.

Special attachment for carrying rifle case
Available in Green color

Abhinav Bindra wearing Olympia model
Made up of imported fusion material

PRO Jacket - Trousers :

Our PRO Jacket-Trouser Range- Premium Quality Jackets & Trousers for professional shooters. This is the pure masterpiece of design and structure, immaculately stitched to suit the needs and requirements of a Professional Shooter. The perfectly customized anatomical cut provides increased stability and gives the shooter the required edge over other competitors. Complete with superior quality fine double canvas, plastic buttons and back support it is a must-have for any professional shooter.

This range is available in four colors :

Green, Black, Red and Blue.

SEMI-PRO Jacket-Trousers :

SEMI-PRO Jacket-Trouser Range- Jackets & Trousers for budding junior shooters. This provides the perfect initial stability the new shooters require to understand and get a feel of the accessories. At the same time it improves their performance and helps building their confidence. Fine quality canvas and plastic buttons complete its simple but presentable look.

Premium Jacket - Trousers :

Our Premium Jacket & Trousers is a perfect blend of revolutionary material with leather, canvas combination. This helps to maintain the stiffness and thickness level of Jacket and Trousers in any weather condition. The specially designed back panel gives extra support in standing position. The design of Jacket and Trouser has been optimized to meet the expectations of individual shooters. Further this model is enhanced with customized anatomical fitting. All measures are taken to meet ISSF standards.

Fine quality canvas and plastic buttons complete its simple but presentable look.

Gloves :

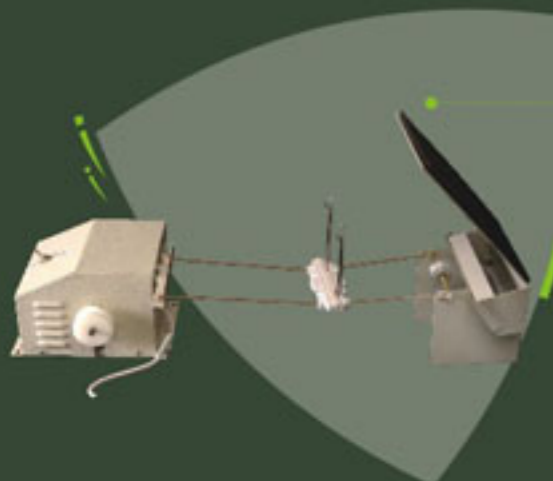

Made of top quality leather and rubber our Gloves provide an excellent grip to all types of rifles. We manufacture them in two varieties namely the widely used Cut Finger Gloves as well as the rarely used Full Finger variety.

Shoes :

Our premium shoes are perfect masterpiece of Indian handicraft. We have kept keen look while developing this shoes to meet the requirements of all three shooting positions. Finest quality material is used in this product.

- 1) Sole is consolidated with three layers.
 - Rigid layer for better support.
 - Soft middle layer for maximum comfort.
 - Zero friction layer with Hollow area for firm grip.
- 2) Soft padded tongue gives you extra comfort at pressure points.
- 3) Two removable Velcro adjustable straps are given for better fitting.

Available for Rifle Shooting as well as Pistol Shooting.

Electronic Target Changer :

Sophisticated electronic target-changer with nylon cord, for 10 mts. range. Equipped with advanced pellet-catcher, adjustable target frame and target lamp.

Manual Target Changers are also available.

Scatt Training System :

fixed on the firearm, this highly accurately measures the weapons alignment during aiming and actuation of the trigger mechanism. Metal fasteners of different dimensions, for use with various diameter barrels, allow the sensor to be fixed to the barrel or gas cylinder. Use collet

KONUSPOT-65 :

KONUSPOT-65 is a high quality prismatic spotting scope, ideal for observing and way laying, thanks to 45 degrees tilting eyepiece. Zoom magnification is useful to progress in discovering details. You can quickly pass from 15x to

45x.

KONUSPOT-65 is supplied with tripod table but the equipment also includes photo adapter (for all models is necessary an optional T-2, in accordance with own reflex camera), and tissue case, all in a stylish colored package.

Shooting Specs :

- 1) Height adjustable nose-bridge
- 2) Suitable for iris, eyeshields, sunshield, polariser, etc.

Stands :

A well-researched and engineered method has been used in the designing of our Stands. We have stressed on maintaining the balance and weight-bearing capacity of the stand. The heavy gauge of metal we use increases the stand's durability and makes it sturdy, but its light-weight and compact structure makes it easily portable. These stands come with the pellet-box holder attachment. Also, we can convert it into a scope-stand.
